BODY DRYER CASE STUDY: Bronzed Tanning Salon, Warwick

INSTALLATION DETAIL:

Bronzed opened in November 2005 and offers tanning and beauty under one roof

The Luxury Body Dryer was installed in summer 2006

Used by clients receiving a California spray tan with the aim to speed up the drying process

OUTCOME:

- As clients only have to stand under the unit for a short time, they can get dressed quickly making it ideal for those in a rush
- In turn, Bronzed can see more clients per day
- Because the warm air dries the tanning lotion instantly, it does not rub off on clothes, resulting in a streak free tan

COMMENT:

'Airobe's Luxury Body Dryer has already proved invaluable... It has given us a real advantage with our customers who are delighted with the results and are returning to the salon and recommending us to friends.'

Adrian Symonds, Owner of Bronzed
